- Eastern Bluebird
- Hermit Thrush
- Wood Thrush
- American Robin

MIMICKING BIRDS & THRASHERS:  Mimidae
- Gray Catbird
- Northern Mockingbird
- Brown Thrasher

STARLINGS:  Sturnidae
- European Starling

WAXWINGS:  Bombycillidae
- Cedar Waxwing

WOOD-WARBLERS:  Parulidae
- Orange-crowned Warbler
- Northern Parula
- Yellow Warbler
- Yellow-rumped Warbler
- Yellow-throated Warbler
- Pine Warbler
- Prairie Warbler
- Palm Warbler
- Black-and-white Warbler
- Prothonotary Warbler
- Ovenbird
- Louisiana Waterthrush
- Common Yellowthroat
- Hooded Warbler
- Yellow-breasted Chat

TANAGERS:  Thraupidae
- Summer Tanager

TOWHEES & SPARROWS:  Emberizidae
- Eastern Towhee
- Bachman’s Sparrow
- Chipping Sparrow

For additional information on Point Washington State Forest contact:
Point Washington State Forest
5865 East U.S. 99
Santa Rosa Beach, FL 32459
850/ 231-5800
Welcome to the many coastal communities of South Walton County. The forest contains some excellent examples of sandhill and old growth longleaf pine as well as various wetland ecosystems that attract a wide range of bird species. Bachman’s sparrows are very likely to be heard during the spring in areas of wiregrass and palmetto in the southern portion of the 3-mile loop of the Eastern Lake Trail. A variety of songbirds and red-shouldered hawks are commonly spotted where the 5 and 10-mile Eastern Lake Trail sections cross the western arm of Peach Creek. In the flatwoods area you can find an abundance of cooper’s hawks, eastern towhees and common yellowthroats.

Trail maps for Point Washington State Forest are available at each trailhead kiosk.

These categories apply to the relative abundance of species seen (or heard) in the appropriate habitat.
