**Overview:** This course is designed to assist structure and wildland firefighters who will be making tactical decisions when confronting wildland fire that threatens life, property, and improvements, in the wildland/urban interface. Instructional units include interface awareness, size-up, initial strategy and incident action plan, structure triage, structure protection tactics, incident action plan assessment and update, follow-up and public relations, and firefighter safety in the interface.

**Objectives:** This course provides students with the skills and knowledge to size-up a wildland/urban interface fire incident, evaluate the potential situation, order and deploy the necessary resources, and apply safe and effective strategy and tactics to minimize the threat to life and property.

**Prerequisites:** Wildland Fire Agencies: Students must be Firefighter Type 1 (FFT1) qualified. Structure Fire Departments: Students should have completed Introduction to ICS (I-100), Human Factors on the Fireline (L-180), Firefighter Training (S-130), Introduction to Wildland Fire Behavior (S-190), and Firefighter Type 1 (S-131); or equivalent training.

Participants attending this training must be knowledgeable of their agency firefighting policy as it relates to wildland/urban interface fires. They should bring this policy and Incident Response Pocket Guide along with them to class.

**Location:** Withlacoochee Training Center

**Course Fees:** $90 tuition, $30.00 per night lodging, $25.00 per 3/day meals
