Dianne Collins
Don Elder
Robin Petzold
REVIEW AND APPROVAL OF THE APRIL 2019 RULES COMMITTEE MINUTES

After discussion, the following motion was made:

MOTION: Ms. Hill made a motion to approve the April 2019 minutes.
SECOND: Mr. McLaughlin seconded.
ACTION: The motion passed unanimously.

UPDATE ON STATUS OF RULE ADOPTION PACKAGES

Mr. Summers reported that the first Rules Adoption package was effective July 11, 2019 and the second Rules Adoption package had been filed and would be effective August 18, 2019.

PUBLIC COMMENT

Mr. Hyde stated that he would like to know the status of the questions that were received from the public in reference to the postponed Rules webinar. Mr. Summers stated that he is working on this project. Ms. Harper said that the questions would be equally divided among the three Rules Committee members for review and would be forwarded soon. Ms. Harper also stated that there would be no legislation from the Department, pertaining to the Board, during the 2020 Florida Legislative Session. Mr. Campanile stated that there may be a consideration for a potential rule or law regarding the differences between surveyors and engineers and requirements for examination/experience prerequisites. He said, for example, in Chapter 471.013, F.S. that the engineering applicant has a record of 4 years of active engineering experience of a character indicating competence to be in responsible charge. He continued by stating that the surveying applicant must be or have been in responsible charge. He said that in some situations, it could make a difference as to how someone acquires experience. He said that he would like this to be added to the ongoing list of potential changes to the laws/rules for discussion.

ADJOURNMENT – The Rules Committee was adjourned at 10:35 a.m.
